

Diagram illustrating a second embodiment of the device. It features a circular structure containing two vertical bars (301) and two horizontal bars (302). A horizontal line (303) is positioned below the horizontal bars, with an arrow pointing to it.

A simple compass rose diagram consisting of a vertical line with an upward-pointing arrow labeled 'North' and a downward-pointing arrow labeled 'South'. A horizontal line intersects the vertical line at its center, with a leftward-pointing arrow labeled 'East' and a rightward-pointing arrow labeled 'West'.
